Newsletter December 2018

Kia Ora Parents and Whanau,

December has arrived and the count down is on for our end of year Christmas party and show. The children have been putting a lot of time and effort into rehearsing the song lyrics and actions for their performance so we hope you can all come along!

New soft-fall turf has been installed in our infant and toddler outdoor area—just in time for summer. The new slide has also arrived so the children have all been taking turns trying it out.

We have been having a lot of fun with water play in both our rooms, so we recommend packing togs to bring along on the warmer days of December.

Kind regards,
Hailey Nasmith
Centre Manager

Fantails Christmas Party

Friday 14th December 5.30-7.30pm at Silverdale School.
Please note that our postpone date is Monday 17th December, should the weather be too wet on the 14th.

In the Babies Room...

Over the past month the Morepork tamariki have made the most of the warmer days to get outside into the sand pit and paddling pool. The water wheels have proved to be popular as the children observe and process the concept of 'cause and effect'. The Morepork tamariki have also been watering the plants with the hose and the watering cans. Over the next month we plan to do a lot of music and movement experiences with our Christmas songs.

In the Preschool Room...

November was a fun filled month with one highlight being our trip to SheepWorld with our three and four year old Pre-schoolers. We saw a sheep herding and sheering demonstration as well as getting up close to goats, ponies, chickens, donkeys, emu and deer.

In the Preschool room children of all ages have been enjoying our water slide, paddling pool and sprinklers. We hope the warm weather will continue for lots of outdoor fun!

Over the next few weeks the preschool children will be getting creative, working on their Christmas props and decorations for our end of year show.
